

Academic English Course

Course Description

Our Academic English Course is for motivated students with a B2+ level of English, who wish to study full-time in the UK in the future. Students may take this optional course in addition to our General English course.

Our professional and qualified teachers offer useful advice and information for UK academic life and courses take place at a traditional UK boarding school.

We aim to develop and practise essential academic skills and to nurture life skills that are necessary for studying away from home, such as time management, being independent and prioritising tasks.

Students benefit from practical lessons on essay writing, giving effective presentations and note taking techniques, useful for university lectures.

Students create and deliver short presentations and receive individual feedback.
